HiSET Options Program

Permission to Test Waiver

Checklist for HiSET Option Program Testing

A student in the HiSET Option Program has participated in preparation for this test and is, and will continue to be a full-time student. Taking the HiSET test is an alternative graduation path therefore there are specific requirements that must be met for this exception to test.

- The HiSET Options Program students must take the HiSET pretests before taking the actual test.
- The Permission to Test Waiver form must be signed by the student's parents, high school Option Program Coordinator and submitted to the Option Program Specialist before testing. He/she will in-turn sign and send the form to the school so that the students can present proper documentation when they test.
- The results of those pretests must be submitted to the OPI HiSET Option Program Specialist with the Waiver form to OPI for approval.
- Electronic submissions are acceptable.
- The program coordinator must register the students online for the HiSET. Of special note is the inclusion of the state ID in the background section of the registration. The state ID is **Options** and must be included for proper data collection.
- Students must report to the test center with the waiver form, proper identification and test center fee (if applicable).
